

Mojo Security

World Leading Wireless Intrusion Prevention for Federal Agencies

What Mojo Security Delivers To You

Real time response to all wireless security threats at the edge

Multiple ways to access and protect data for a more complete security posture

Persistent protection from threats and limitless analysis potential

How Mojo Security Helps You

- Classification and prevention is built on behavior, not rule sets, to improve accuracy and speed of response
- Quarantine activities occur within seconds of threat detection
- Alerts are sent immediately to all relevant parties via email, SNMP or Syslog
- Push relevant security alerts to external systems automatically with built in ESM integration
- Create custom response triggers and actions leveraging Mojo API
- Control console access with RADIUS, LDAP or enable certificate based authentication for server administrator X509
- Detection and prevention occurs 24x7x365 over the air and on the wire
- Sensors respond to threats even when console communication is interrupted
- Location tracking services for both live and historical device locations

Demo

Want to learn more? Of course you do! An intimate demo is the best way to learn more about Mojo Networks and what we can do to bring you the best wireless security platform for every need.

Evaluation

After we show you what Mojo AirTight is all about, we want you to see it for yourself. Be sure to ask your rep about our no obligation 30-Day trial.

Mojo Wireless Intrusion Prevention

Mojo supports the entire wireless security workflow, from authorized WLAN policy creation through device classification and event and report management. The goal is simple:

INSTALL & CONFIGURE

- Secure WLAN policies
- Dynamic classification rules
- ESM/WLAN Controller integration

MONITOR & OPTIMIZE

- Active threat monitoring
- Security dashboards and compliance reports
- On demand location tracking

RESPOND & ACT

- Automatic prevention
- Event alerting
- Automated reporting distribution

Unique WiFi Security Features

These are just a few key features Mojo delivers with its cloud managed platform to bring the best to wireless security everywhere

Mojo Wireless Manager is a single pane-of-glass for all network and security policy workflows

Mojo AirTight protects your WLAN from threats such as rogue APs, WPA2 vulnerabilities, and man-in-the-middle attacks.

Automatic prevention targets wireless threats on the wire and over the air for total quarantine capabilities in real time

Marker Packets are a key element to accurately classify active WiFi networks and surround clients

About Mojo Networks, Inc.

Mojo Networks is redefining the modern WiFi platform. Imagine the scalability to set up millions of access points with a few clicks, all from your smartphone. Envision an Internet experience that engages users with your business to drive results. Stay secure on the same WiFi cloud powering Fortune 500s, Global 2000s and the highest levels of government. And enjoy the cost savings of a cloud-first solution without the pricey markup of proprietary hardware. Welcome to the era of prolific connectivity. Founded in 2003, Mojo Networks (formerly known as AirTight Networks), serves customers in the Fortune 500, Global 2000 and large carriers around the world. Set up a free trial of Mojo Networks today at www.mojonetworks.com.
