

Mojo Networks at a Glance

Why Mojo?

- Supercharge your network performance
- Protect your users & data with best-in-class security
- Fuel your application performance
- Scale your network with the unlimited cloud
- Captivate your audience
- Reduce your IT spend, and network downtime

Fast Facts

- Founded in 2003 as AirTight Networks
- Over 2500 global customers
- Over 450,000 WiFi access points shipped worldwide
- #1 rated by Gartner for wireless security, six consecutive years
- Headquarters in Mountain View, CA, with regional offices in India, Japan, the UK, Spain, and Germany

Simply Brilliant Cloud WiFi

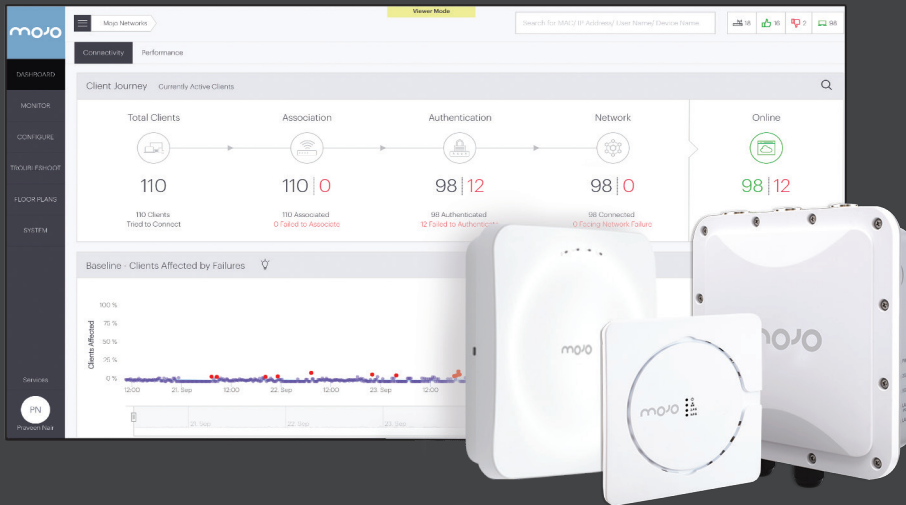

Mojo delivers secure, high-performance WiFi that is deeply intelligent and immensely scalable. Cognitive WiFi™, Mojo's cloud-managed WiFi solution, applies artificial intelligence to the wireless network at a degree that is only possible by harnessing the limitless computing power and storage capacity of the cloud. The result is a brilliant self-driving network that enables businesses to achieve stellar network performance and unsurpassed data protection, while reducing IT costs and minimizing network troubleshooting time.

Mojo's award-winning 802.11ac Wave 2 access points feature 4:4 MU-MIMO capability, best-in-class security, and exceptional performance. The built-in third radio increases network uptime by simulating a client device and proactively resolving issues before they impact WiFi users.

The Future of Enterprise WiFi

Cloud

An API-driven cloud architecture with the reliability, accessibility, security, ease of use, and scalability needed to support every WiFi workflow.

Access Points

Enterprise-grade intelligent access points that deliver reliable, high-performance networks, and proactively secure the air utilizing a multi-function 3rd radio.

- Intelligent edge that automatically detects network issues, pinpoints root causes, and responds in real time
- Machine learning and big data powered self-driving network that baselines application performance, user experience, and detects anomalies
- Proactive client connectivity testing evaluates application, WiFi and Internet experience before your users do

- Industry-leading, patented Wireless Intrusion Prevention System (WIPS)
- Accurate out-of-the-box automatic device classification and behavioral analysis based wireless threat detection
- Trusted over-the-air wireless threat prevention
- #1 rated by Gartner for wireless security, six consecutive years
- 25+ US and international patents, FedRAMP SAR, and certified for FIPS140-2, Common Criteria EAL2+, DISA UC APL

- Multiple guest WiFi options including social network, web form, SMS, payment based and credentialed access
- Splash page designer to deliver a custom-branded guest experience
- Big data WiFi analytics including presence, social, loyalty and zone-based analytics
- Integration with 3rd party systems including business intelligence, CRM and marketing

Included with cloud license:

- Cognitive WiFi, WIPS, Guest Access, Analytics, and more
- Always up-to-date
- Secured by SSAE 16 SOC 2 certified SaaS cloud with attestation for security WITHIN the cloud
- 24/7 global support

About Mojo Networks, Inc.

At Mojo, we're shaking up the Enterprise WiFi industry. We know that customers are ready for a modern WiFi network that doesn't rely on outdated controllers and proprietary hardware. Our cloud-managed WiFi solution is based on a radical vision for creating networks that reach new heights in performance, security, scalability, and ease-of-use. Founded in 2003 and headquartered in Mountain View, CA, Mojo Networks delivers brilliant WiFi to many of the world's top brands and highest levels of government.
