

Mojo Cloud WiFi for K-12

Why Mojo for K-12

- Lowest K-12 pricing in the industry
- Future-proof your WiFi with seamless secure cloud-managed wireless
- Protect your students and your data with best-in-class security
- Always be prepared for online testing
- Reduce your IT spend and network downtime
- Integration with Google for Education
- Make your E-Rate dollars go farther

With Mojo Networks, we have seen a dramatic increase in performance, with little to no issues regarding the network saving my team up to ten hours a week in time spent troubleshooting network access problems."

-Jeff Davis, Director of Technology, Knob Noster School District

Simply Brilliant Cloud WiFi

Mojo delivers secure, high-performance WiFi that is deeply intelligent and immensely scalable. Cognitive WiFi™, Mojo's cloud-managed WiFi solution, applies artificial intelligence to the wireless network at a degree that is only possible by harnessing the limitless computing power and storage capacity of the cloud. The result is a brilliant self-driving network that enables businesses to achieve stellar network performance and unsurpassed data protection, while reducing IT costs and minimizing network troubleshooting time.

Mojo's award-winning 802.11ac Wave 2 access points feature 4:4 MU-MIMO capability, best-in-class security, and exceptional performance. The built-in third radio increases network uptime by simulating a client device and proactively resolving issues before they impact WiFi users.

The Future of K-12 Education WiFi

Cloud

An API-driven cloud architecture with the reliability, accessibility, security, ease of use, and scalability needed to support every WiFi workflow.

Access Points

Enterprise-grade intelligent access points that deliver reliable, high-performance networks, and proactively secure the air utilizing a multi-function 3rd radio.

"I selected Mojo Networks over Aruba and Cisco, saved money for my district and couldn't be happier."

- Patrick Moran, Business Administrator/
Board Secretary, Educational Services

Mojo awarded the school product of the year award 2017

Simplicity

- Faster deployment and roll-out of campus wide WiFi to enable digital learning
- Simplified management of distributed networks through Mojo's cloud dashboard
- True zero touch deployment, as access points become fully functional minutes after they are plugged in
- Seamless integration with Google for Education

Safety

- Provides complete control of the wireless to keep students confined within your wireless network and only from approved devices
- Keep CIPA compliance in check
- Ensures students and teachers are safe as they interact with learning applications
- #1 rated by Gartner for wireless security, six consecutive years
- 25+ US and international patents, and SOC 2 Type 1 & 2 attestation for security within the cloud

Savings

- Mojo 100% cloud offering removes on-site, expensive controller appliances keeping the costs low.
- No need for complicated or costly upgrades; the Mojo Cloud is always up-to-date with the latest capabilities
- Access to the latest software and product enhancements
- Simple licensing to make the E-Rate application process move smoothly and predictably

Mojo Cloud Subscription Includes: Cognitive WiFi™ | WIPS | Guest Access | Analytics & Reporting | 24/7 Global Support

About Mojo Networks, Inc.

At Mojo, we're shaking up the Enterprise WiFi industry. We know that customers are ready for a modern WiFi network that doesn't rely on outdated controllers and proprietary hardware. Our cloud-managed WiFi solution is based on a radical vision for creating networks that reach new heights in performance, security, scalability, and ease-of-use. Founded in 2003 and headquartered in Mountain View, CA, Mojo Networks delivers brilliant WiFi to many of the world's top brands and highest levels of government. Serving over 2500 customers, Mojo has shipped over 450,000 access points and supports over 50 million devices per week on our cloud infrastructure.
